## About Mirihi Island Resort:

Just 350 meters in length and 50 meters in width, this tiny gem with its pristine nature, fringed-palm beaches and powdery sand, authentic hospitality and celestial quietness invites you to leave your shoes behind and enjoy the "art of doing nothing". Ringed by 6 km of spectacular house reef; an underwater playground for sea turtles, reef sharks, eagle rays and hundreds of varieties of rainbow-hued fish and our own shipwreck, Mirihi is only a short boat ride from South Ari Atoll Marine Protected Area where whale sharks and manta rays are spotted regularly throughout the year.
